

Students of Sustainability

Explore ideas & action for
sustainable and just communities

It is an educative conference about
the earth and it's inhabitants,

A practical course in **social
change**,

An uplifting convergence of
allied passions,

An **inspiring festival** of
alternative worlds,

And a **vital gathering of
diverse strategies** to similar
ends.

**"Doing it
ourselves"**

July 6 - 10 2009

Monash University

ALL WELCOME

Students of Sustainability 2009 Melbourne, 6th - 10th of July

As the largest & longest running environment based conference in Australia, each year SoS offers an amazing opportunity for delegates to experience a vast array of informational speakers, practical workshops, empowering activities, contacts, opportunities and inspiration to create positive social change in their communities.

What's Happening?

Issues include climate change, indigenous sovereignty, the uranium/nuclear industry, globalisation, forest logging, community solutions and many more.

There will be workshops, forums and excursions on topics such as culture jamming, strategic campaigning, community building, green economics, spirituality, bike maintenance, zines, organic food, guerilla gardening, and more.

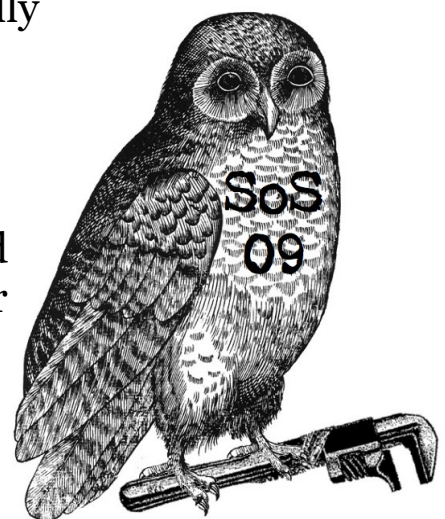

Details

SoS is a five day camping conference with a fully catered vegan menu and billeting available.

Music & entertainment each night.

Transport to the conference is being organised from all over Australia – check the website for your local transport contact.

See website for updates, registration and more information.
